

The image displays three views of a custom printed circuit board (PCB):

- Top View:** Shows a green PCB with a large silver-colored metal pad in the center. The label "EC43" is visible on the left side.
- Bottom View:** Shows the reverse side of the PCB, featuring a green solder mask and a complex pattern of copper traces and vias. The label "A B VL02" is printed in the upper right corner.
- Component Side View:** Shows the PCB populated with various electronic components. Key components include a large black integrated circuit (IC) labeled "0511", a smaller IC labeled "0512", and several passive components like resistors and capacitors. The label "EC43" is visible on the left side.
